WonderLab is committed to ensuring that the safest camp options are available to all families. We stay up to date with COVID-19 information and with CDC and Monroe County Health Department recommendations. We will implement new practices as is warranted for the safety of our camp community.

**Drop Off and Arrival**
- Please do not come to camp if you are feeling ill or if anyone in your household is suspected to have, been exposed to a known case, or has tested positive for COVID-19.
- Our drop off time has been extended so that parents and caregivers may stagger arrival.
- Campers should be masked upon arrival. (See mask guidelines below.)
- Campers will be greeted at their cars by a masked camp staff member and walked by a staff member to their camp area.
- Campers will have temperature checks and short verbal screening upon arrival.
- Campers will wash hands and/or use hand sanitizer before joining the day’s activities.
- Parents and caregivers should remain in vehicles during drop-off.
- Arrangements for campers arriving by foot, bike, or public transportation will be made individually.
- WonderLab will utilize communication tools such as text or email so that parents are able to have clear communication with camp teachers and camp director without extra traffic through camp areas.
- Parents and caregivers of each camp will be made aware of communication practices and tools in advance of that camp so that they may communicate effectively with the camp teacher and camp director.

**During Camp**
- Each weekly camp session will begin with a collaborative discussion of health and safety practices and an agreement to strive to keep oneself and others healthy.
• Campers will have tours, training, and demonstrations in hand-washing, location of handwashing stations, hand sanitizer, and bathrooms, distancing, masking, and all other COVID related safety practices.
• Campers must remain masked, indoors and out, throughout the camp day unless they are eating or drinking. Masks must be cloth or disposable face coverings that fully cover the mouth and nose. Each camper should have 1-2 extra masks and masks should have camper names.
  ○ Read more about WonderLab masks here.
  ○ Read More: How to help children adjust to masks according to experts and parents, Washington Post, 8/10/2020
• Campers will wash hands before and after snack and lunch time. Campers will not share food or drink. During snack and lunch time, campers will be arranged so that they may distance while eating and socializing. Lunch practices will be covered in more detail in individual camps.
• Snacks and lunch will be outdoors whenever possible.
• Campers will wash and/or sanitize hands between activities and as otherwise necessary throughout the camp day.
• Campers and staff will practice social distancing, indoors and out, throughout the camp day.

Cleaning and Sanitation
• All surfaces and common materials will be disinfected in between uses and at the end of each day.
• Camp bathrooms will be thoroughly cleaned and disinfected at the end of each camp day.
• Campers will have Individual sets of camp materials in their own storage space to be used throughout the week.
• All camps will engage in outdoor activities and time as much as possible.
• If additional cleaning is required for a specific camp, information will be included in our daily practices.
• Snacks, drinks, and lunch will be stored and consumed in clean areas.

Pick-Up
• our pickup time has been extended so that parents and caregivers may stagger arrival.
• Drivers are asked to display their camper’s name in the vehicle window for speedy pick up.
• Staff will bring campers to the car and drivers will remain in the vehicle.
● Campers will sanitize their hands before entering their vehicles.
● Drivers are asked to have their ID ready and carry a personal writing utensil for sign in and out
● WonderLab will utilize communication tools such as text or email so that parents are able to have clear communication with camp teachers and the camp director without extra traffic through camp areas.
● Parents and caregivers of each camp will be made aware of communication practices and tools in advance of that camp so that they may communicate effectively with the camp teacher and camp director.
● Arrangements for campers departing by foot, bike, or public transportation will be made individually.

**Camp Staff Health Safeguards**

● Staff will be trained and familiarized with safety and sanitation procedures practices.
● Staff will be familiar with communication practices and tools for camps.
● All WonderCamp staff, interns, and volunteers are instructed to perform a daily temperature check and personal health screening upon arrival at camp site.
● Community partners and special presenters will be screened and have their temperature taken upon arrival at camp site.
● Camp staff are instructed to wash hands (or use hand sanitizer if washing is not possible) frequently throughout the day following this procedure:
  ○ Wet hands with running water, apply soap, lather back of hands, 2 inches above wrists, between fingers, under nails for at least 20 seconds. This will be done 1. Upon arrival, 2. Whenever moving out of personal workspace into a shared area, 3. Before and after snacks and meals 4. After any of the following activities: using the restroom, sneezing, touching face, blowing nose, cleaning; 5. Whenever moving from one activity or area to another, 6. Throughout the day as needed and 7. Immediately prior to departing the site. Staff are instructed to not share personal equipment or tools, and if shared for any reason, must be disinfected between users.
● Personal hand sanitizer will be given to each camp staff member (and can be refilled throughout the week as needed) and stations will be positioned in accessible ways throughout the location.
● WonderCamp Staff have signed an agreement to reduce exposure risk, self-monitor for signs and symptoms of COVID-19, assess health status prior to entering the site, and report when ill or experiencing symptoms.
● Staff are required to stay home if they feel ill, go home if they feel ill, and follow their healthcare provider’s directive for remaining home due to actual or possible COVID-19
infection or exposure. If requested or needed, employees will get tested for COVID-19 to help slow the transmission and spread.

**Communication regarding COVID-19**

- The camp director will be the primary communication person for all camps.
- If your camper child or any child in your care has been exposed to, or tested positive for, COVID-19, immediately contact Colleen Couper, WonderLab Camp Director, at 812.219.9964 or colleen@wonderlab.org
- Please alert us to positive cases during camp or if they arise in the ten days after camp.
- Camp interns and volunteers will report any health or sanitation concerns to the camp director.
- Parents and caregivers should report health concerns to the camp director.
- If a family reports a positive COVID case to a WonderLab staff member, the following steps will be taken:
  - WonderLab will verify that the case has been reported to the Indiana Department of Health (Indiana Department of Health’s Contact Tracing Hotline: 833-670-0067)
  - WonderLab will follow up with the Indiana Department of Health and, if necessary, the Monroe County Health Department (per IDOH instructions).
  - WonderLab will alert all campers and staff to potential exposure.
  - The positive individual will remain quarantined for the remainder of the camp session, and, if registered for a following session, for 10-days from the onset of symptoms, or a positive test (whichever is later), and until they are fever free without fever reducing medication, and improvement of symptoms.
  - WonderCamp staff will perform deep cleaning and disinfection of the camp areas before the next camp day.
  - In the unlikely event that health concerns for a particular camp become such that we feel all campers and staff are at risk, the camp will convert to a virtual format.
